

# Stretch Film Wrapper GL 212

Reliable, stable and cost-effective  
pallet wrapping

**Benefits** The machine is equipped with a motorised pre-stretch system with 3 driven rollers, electronically controlled with interchangeable gear ratios: 150%, 200% and 250%. The machine is easy to operate, with clear and simple button functions. Replacing the film roll is simple and fast. There are access points in the base of the turntable to allow internal transport with a forklift.

#### Technical data

<b>Machine</b>	Turntable speed	4 - 12 rotations per minute, adjustable
	Ramp	3-way adjustable
	Electrical supply	230, 1-Phase, 50/ 60 Hz
	Power	0, 85 kW
	Electrical system & motor protection	IP 54

#### Machine function

- infinitely variable speed turntable
- infinitely variable speed film carriage
- number of adjustable upper and lower windings
- pallet height sensing
- up and down winding
- rainproof program
- manually: - turntable speed - film carriage up and down

#### Pallet load

Length/ Width	max. 1000 x 1200 mm
Pallet height	2100 mm
Pallet weight	max. 2000 kg

#### Stretch film

Material	LLDPE (cyklopstretch)
Width / diameter	500 mm / max. 250 mm
Thickness	15 - 30 µm
Core diameter	76 mm

#### Options

- Ramp
- Pressure plate
- Weighing system
- Extended mast to 3000 mm
- Up and down winding
- Roller conveyor (not motorized) to lock in turning
- Mounting ring
- Horseshoe turntable
- Turntable 1.800 mm, 2.200 mm
